Tools: Recharge • Bold • PageFly • Shogun • GemPages • Figma • Adobe XD • Git • GitHub

PROFESSIONAL EXPERIENCE

Senior E-commerce Expert

NorthPeak Commerce Labs — Portland, OR | Remote | Nov 2025 – Present

Project: Dusty's Trail — dustystrail.com

- Lead the e-commerce work for Dusty's Trail, covering Shopify development, storefront UX, merchandising, bundles, recipes, promotions, and ongoing optimization.
- Simplified how products and bundles are presented, helping add-to-cart activity grow by roughly 14%.
- Connected recipe content more naturally with related products, and visitors began spending about 18% longer on the site.
- Fine-tuned mobile navigation, recommendations, cart messaging, and promotional flows, contributing to an estimated 9% lift in average order value.
- Also support broader commerce work across WooCommerce and Adobe Commerce, including catalog updates, frontend fixes, integrations, and platform-specific troubleshooting.

Freelance Shopify Expert

Fiverr & Independent Clients | Remote | Mar 2020 – Dec 2022

Featured Project: Mystiqare — mystiqare.com

- Worked directly with Mystiqare on product pages, bundles, promotions, reviews, loyalty features, and ongoing Shopify improvements.
- Reworked product pages around benefits, ingredients, routines, and related products, helping recommendation engagement rise by roughly 16%.
- Made the Beauty Passport / MystiCoins experience easier to find and use, supporting about 12% more repeat-customer engagement.
- Alongside Shopify work, handled smaller WooCommerce projects and migrations, including theme updates, checkout fixes, plugin setup, and product imports.
- Managed projects from requirements and estimates through development, QA, launch, and follow-up support.

Shopify / E-commerce Developer

DigitalSuits — Miami, FL | Remote | Jan 2018 – Feb 2020

Project: EASURE Scrubs — easurescrubs.com

- Worked across EASURE's Shopify store, improving product pages, collections, promotions, and mobile shopping flows.
- Made sizing, variants, and fabric details easier to understand, helping product-page abandonment fall by around 12%.
- Built reusable Liquid sections for campaigns, allowing the marketing team to publish updates roughly 35% faster.
- Supported selected Magento / Adobe Commerce and WooCommerce accounts with catalog work, frontend updates, integrations, and maintenance.
- Improved content and mobile shopping flows, contributing to an estimated 9% increase in conversion on optimized journeys.

BigCommerce Developer

Trellis — Boston, MA | Remote | Jun 2015 – Dec 2017

Selected Project: Perdido Hat Co. — perdidohatco.com

- Built and maintained responsive e-commerce storefronts across product pages, collections, navigation, cart flows, and promotional content.
- Worked with BigCommerce Stencil, Handlebars, JavaScript, HTML, and CSS to create reusable storefront components.
- Made custom-product options easier to understand, helping customer inquiries rise by roughly 17%.
- Supported early WooCommerce and Magento storefront work, mostly around theme customization, catalog updates, and frontend troubleshooting.
- Improved catalog structure and mobile browsing, helping shoppers view around 13% more products per session.

CAREER BREAK

Jan 2023 – Oct 2025

Took time away from full-time work before returning to e-commerce in late 2025.

EDUCATION

Bachelor of Science in Information Systems

Florida Institute of Technology — Melbourne, FL | Aug 2011 – May 2015

Relevant studies: Web Development • Database Systems • E-commerce • Systems Analysis • Business Information Systems • UX Design

ADDITIONAL EXPERTISE

Shopify Plus • BigCommerce • WooCommerce • Adobe Commerce / Magento • Liquid • Stencil • Handlebars • Custom Themes • Storefront APIs • Store Migration • Catalog Architecture • Merchandising • CRO • Loyalty & Subscriptions • Performance Optimization
